

Agealube Silicone Spray, aerosol 26.017

SECT	ION 1: IDENTIFICATION OF THE SUBS	TANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING		
1.1	Product identifier:	Agealube Silicone Spray, aerosol 26.017		
1.2	Relevant identified uses of the substance	or mixture and uses advised against:		
	Relevant uses: Lubricant			
	Uses advised against: All uses not specifie	d in this section or in section 7.3		
1.3	Details of the supplier of the safety data s	heet: GVG Oliehandel BV De Vlotkampweg 77 6545 AE Nijmegen - the Netherlands Phone.: 0031 (0)24 - 675 43 61 - Fax: 0031 (0)24 - 675 43 68 info@gvgoliehandel.nl http://www.gvgoliehandel.nl		
1.4	Emergency telephone number:	0031 (0)24 675 43 61 (08:00-17:30)		
SECT	ION 2: HAZARDS IDENTIFICATION			
2.1	Classification of the substance or mixture:			

CLP Regulation (EC) nº 1272/2008:

Classification of this product has been carried out in accordance with CLP Regulation (EC) nº 1272/2008.

Aerosol 1: Flammable aerosols, Category 1, H222

Aerosol 1: Pressurised container: May burst if heated., H229

Aquatic Chronic 2: Hazardous to the aquatic environment, long-term hazard, Category 2, H411 Skin Irrit. 2: Skin irritation, Category 2, H315

STOT SE 3: Specific toxicity causing drowsiness and dizziness, single exposure, Category 3, H336 Label elements:

2.2 Label elements:

CLP Regulation (EC) nº 1272/2008:

Danger

Hazard statements:

Aerosol 1: H222 - Extremely flammable aerosol Aerosol 1: H229 - Pressurised container: May burst if heated Aquatic Chronic 2: H411 - Toxic to aquatic life with long lasting effects Skin Irrit. 2: H315 - Causes skin irritation STOT SE 3: H336 - May cause drowsiness or dizziness

Precautionary statements:

P101: If medical advice is needed, have product container or label at hand

P102: Keep out of reach of children

- P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking
- P211: Do not spray on an open flame or other ignition source
- P251: Do not pierce or burn, even after use
- P261: Avoid breathing dust/fume/gas/mist/vapours/spray
- P271: Use only outdoors or in a well-ventilated area
- P403: Store in a well-ventilated place
- P405: Store locked up

P410+P412: Protect from sunlight. Do no expose to temperatures exceeding 50 °C/122°F

P501: Dispose of contents and / or containers in accordance with regulations on hazardous waste or packaging and packaging waste respectively

Substances that contribute to the classification

Hydrocarbons, C7, n-alkanes, isoalkanes, cyclics; Hydrocarbons, C6, isoalkanes, <5% n-hexane

2.3 Other hazards:

Non-applicable

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substance:

Agealube Silicone Spray, aerosol 26.017

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS (continued)

Non-applicable

3.2 Mixture:

Chemical description:

Components:

In accordance with Annex II of Regulation (EC) nº1907/2006 (point 3), the product contains:

Mixture of substances

	Identification		Chemical name/Classification	Concentratio
CAS:	Non-applicable	Hydrocarbons, C7, n-alk	anes, isoalkanes, cyclics Self-classified	
EC: Index: REACH:	927-510-4 Non-applicable 01-2119475515-33-XXXX	Regulation 1272/2008	Aquatic Chronic 2: H411; Asp. Tox. 1: H304; Flam. Liq. 2: H225; Skin Irrit. 2: H315; STOT SE 3: H336 - Danger	10 - <25 %
CAS:	Non-applicable	Hydrocarbons, C6, isoall	xanes, <5% n-hexane Self-classified	
EC: Index: REACH:	931-254-9 Non-applicable 01-2119484651-34-XXXX	Regulation 1272/2008	Asp. Tox. 1: H304; Flam. Liq. 2: H225; STOT SE 3: H336 - Danger	10 - <25 %
CAS:	110-54-3	N-hexane	ATP CLP00	
EC: Index: REACH:	203-777-6 601-037-00-0 01-2119480412-44-XXXX	Regulation 1272/2008	Aquatic Chronic 2: H411; Asp. Tox. 1: H304; Flam. Liq. 2: H225; Repr. 2: H361f; Skin Irrit. 2: H315; STOT RE 2: H373; STOT SE 3: H336 - Danger	0.1 - <1 %
CAS: 110-82-7		Cyclohexane	ATP CLP00	
EC: Index: REACH:	203-806-2 601-017-00-1 01-2119463273-41-XXXX	Regulation 1272/2008	Aquatic Acute 1: H400; Aquatic Chronic 1: H410; Asp. Tox. 1: H304; Flam. Liq. 2: H225; Skin Irrit. 2: H315; STOT SE 3: H336 - Danger	0.1 - <1 %

To obtain more information on the risk of the substances consult sections 8, 11, 12, 15 and 16.

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures:

The symptoms resulting from intoxication can appear after exposure, therefore, in case of doubt, seek medical attention for direct exposure to the chemical product or persistent discomfort, showing the SDS of this product. **By inhalation:**

Remove the person affected from the area of exposure, provide with fresh air and keep at rest. In serious cases such as cardiorespiratory failure, artificial resuscitation techniques will be necessary (mouth to mouth resuscitation, cardiac massage, oxygen supply, etc.) requiring immediate medical assistance.

By skin contact:

Remove contaminated clothing and footwear, rinse skin or shower the person affected if appropriate with plenty of cold water and neutral soap. In serious cases see a doctor. If the product causes burns or freezing, clothing should not be removed as this could worsen the injury caused if it is stuck to the skin. If blisters form on the skin, these should never be burst as this will increase the risk of infection.

By eye contact:

Rinse eyes thoroughly with lukewarm water for at least 15 minutes. Do not allow the person affected to rub or close their eyes. If the injured person uses contact lenses, these should be removed unless they are stuck to the eyes, as this could cause further damage. In all cases, after cleaning, a doctor should be consulted as quickly as possible with the SDS of the product.

By ingestion/aspiration:

Do not induce vomiting, but if it does happen keep the head down to avoid aspiration. Keep the person affected at rest. Rinse out the mouth and throat, as they may have been affected during ingestion.

4.2 Most important symptoms and effects, both acute and delayed:

Acute and delayed effects are indicated in sections 2 and 11.

4.3 Indication of any immediate medical attention and special treatment needed:

Non-applicable

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media:

If possible use polyvalent powder fire extinguishers (ABC powder), alternatively use foam or carbon dioxide extinguishers (CO2). IT IS RECOMMENDED NOT to use tap water as an extinguishing agent.

5.2 Special hazards arising from the substance or mixture:

Agealube Silicone Spray, aerosol 26.017

SECTION 5: FIREFIGHTING MEASURES (continued)

As a result of combustion or thermal decomposition reactive sub-products are created that can become highly toxic and, consequently, can present a serious health risk.

5.3 Advice for firefighters:

Depending on the magnitude of the fire it may be necessary to use full protective clothing and individual respiratory equipment. Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit,...) in accordance with Directive 89/654/EC.

Additional provisions:

Act in accordance with the Internal Emergency Plan and the Information Sheets on actions to take after an accident or other emergencies. Destroy any source of ignition. In case of fire, refrigerate the storage containers and tanks for products susceptible to inflammation, explosion or BLEVE as a result of high temperatures. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

Isolate leaks provided that there is no additional risk for the people performing this task. Evacuate the area and keep out those without protection. Personal protection equipment must be used against potential contact with the spilt product (See section 8). Above all prevent the formation of any vapour-air flammable mixtures, through either ventilation or the use of an inertization agent. Destroy any source of ignition. Eliminate electrostatic charges by interconnecting all the conductive surfaces on which static electricity could form, and also ensuring that all surfaces are connected to the ground.

6.2 Environmental precautions:

Avoid at all cost any type of spillage into an aqueous medium. Contain the product absorbed appropriately in hermetically sealed containers. Notify the relevant authority in case of exposure to the general public or the environment.

6.3 Methods and material for containment and cleaning up:

It is recommended:

Absorb the spillage using sand or inert absorbent and move it to a safe place. Do not absorb in sawdust or other combustible absorbents. For any concern related to disposal consult section 13.

6.4 Reference to other sections:

See sections 8 and 13.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling:

A.- Precautions for safe manipulation

Comply with the current legislation concerning the prevention of industrial risks. Keep containers hermetically sealed. Control spills and residues, destroying them with safe methods (section 6). Avoid leakages from the container. Maintain order and cleanliness where dangerous products are used.

B.- Technical recommendations for the prevention of fires and explosions

Avoid the evaporation of the product as it contains flammable substances, which could form flammable vapour/air mixtures in the presence of sources of ignition. Control sources of ignition (mobile phones, sparks,...) and transfer at slow speeds to avoid the creation of electrostatic charges. Avoid projections and pulverizations. Consult section 10 for conditions and materials that should be avoided.

C.- Technical recommendations to prevent ergonomic and toxicological risks

Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.

D.- Technical recommendations to prevent environmental risks

Due to the danger of this product for the environment it is recommended to use it within an area containing contamination control barriers in case of spillage, as well as having absorbent material in close proximity.

7.2 Conditions for safe storage, including any incompatibilities:

A.- Technical measures for storage Maximum Temp.: 40 °C

Maximum time: 60 Months

B.- General conditions for storage

Avoid sources of heat, radiation, static electricity and contact with food. For additional information see subsection 10.5

7.3 Specific end use(s):

Agealube Silicone Spray, aerosol 26.017

SECTION 7: HANDLING AND STORAGE (continued)

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters:

Substances whose occupational exposure limits have to be monitored in the work environment

Identification		Environmental li	mits	
N-hexane	IOELV (8h)	20 ppm	72 mg/m ³

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (continued)

As a preventative measure it is recommended to use basic Personal Protection Equipment, with the corresponding <<CE marking>> in accordance with Directive 89/686/EC. For more information on Personal Protection Equipment (storage, use, cleaning, maintenance, class of protection,...) consult the information leaflet provided by the manufacturer. For more information see subsection 7.1.

All information contained herein is a recommendation which needs some specification from the labour risk prevention services as it is not known whether the company has additional measures at its disposal.

B.- Respiratory protection

Pictogram	PPE	Labelling	CEN Standard	Remarks
Mandatory respirator tract protection	Filter mask for gases, vapours and particles y		EN 149:2001+A1:2009 EN 405:2001+A1:2009	Replace when an increase in resistence to breathing is observed and/or a smell or taste of the contaminant is detected.
- Specific protection	on for the hands			
Pictogram	PPE	Labelling	CEN Standard	Remarks
Mandatory hand protection	Protective gloves against minor risks	CATI		Replace gloves in case of any sign of damage. For prolonged periods of exposure to the product for professional users/industrials, we recommend using CE III gloves in line with standards EN 420 and EN 374.
- Ocular and facia	I protection		<u>.</u>	• •

SECTION 10: STABILITY AND REACTIVITY

10.1	Reactivity:							
	No hazardous reactions are	No hazardous reactions are expected because the product is stable under recommended storage conditions. See section 7.						
10.2	Chemical stability:							
	Chemically stable under the conditions of storage, handling and use.							
10.3	Possibility of hazardous reactions:							
	Under the specified conditions, hazardous reactions that lead to excessive temperatures or pressure are not expected.							
10.4	Conditions to avoid:							
	Applicable for handling and	storage at room temperatu	re:					
	Shock and friction	Contact with air	Increase in temperature	Sunlight	Humidity			
	Not applicable	Not applicable	Risk of combustion	Avoid direct impact	Not applicable			
10.5	5 Incompatible materials:							
	Acids	Water	Combustive materials	Combustible materials	Others			

Agealube Silicone Spray, aerosol 26.017

	Not applicable Not applicable Avoid d	irect impact	Not appl	icable	Avoid alkalis	or strong base	
.6	Hazardous decomposition products:						
	See subsection 10.3, 10.4 and 10.5 to find out the specific decom complex mixtures of chemical substances can be released: carbon						
CTI	ION 11: TOXICOLOGICAL INFORMATION						
.1	Information on toxicological effects:						
	The experimental information related to the toxicological properties	s of the product itse	lf is not ava	ailable			
	Dangerous health implications:						
	In case of exposure that is repetitive, prolonged or at concentration may result in adverse effects on health depending on the means of A Ingestion:	-	mmended b	y the occu	pational expos	sure limits, it	
	 Acute toxicity: Based on available data, the classification crite 	aria are not met as	s it does no	t contain si	ubetances clas	scified as	
	dangerous for consumption. For more information see section 3	3.					
	 Corrosivity/Irritability: The consumption of a considerable dos vomiting. B- Inhalation: 	se can cause irritat	ion in the th	ıroat, abdo	minal pain, na	ausea and	
	 Acute toxicity: Based on available data, the classification crited dangerous for inhalation. For more information see section 3. Corrosivity/Irritability: Based on available data, the classification as dangerous for this effect. For more information see section 3. Contact with the skin and the eyes: 	tion criteria are not					
	 Contact with the skin: Produces skin inflammation. Contact with the eyes: Based on available data, the classification criteria are not met, as it does not contain substances clas as dangerous for this effect. For more information see section 3. D- CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction): 						
	 Carcinogenicity: Based on available data, the classification or dangerous for the effects mentioned. For more information see Mutagenicity: Based on available data, the classification crite dangerous for this effect. For more information see section 3. Reproductive toxicity: Based on available data, the classificat classified as dangerous for this effect. For more information see Sensitizing effects: 	section 3. eria are not met, as tion criteria are not	it does not	contain su	ubstances clas	sified as	
	 Respiratory: Based on available data, the classification criter dangerous with sensitising effects. For more information see se Cutaneous: Based on available data, the classification criteria dangerous for this effect. For more information see section 3. F- Specific target organ toxicity (STOT)-time exposure: 	ection 3.					
	Exposure in high concentration can cause a breakdown in the c vomiting, confusion, and in serious cases, loss of consciousnes		tem causing	g headache), dizziness, ve	ertigo, nause	
	 G- Specific target organ toxicity (STOT)-repeated exposure: Specific target organ toxicity (STOT)-repeated exposure: Based on available data, the classification criteria are not met, however, i does contain substances which are classified as dangerous due to repetitive exposure. For more information see section 3. Skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information see section 3. 						
	H- Aspiration hazard: Based on available data, the classification criteria are not met,	however it does co	ntain subst	ances clas	sified as dang	erous for this	
	effect. For more information see section 3. Other information:						
	Non-applicable						
	Specific toxicology information on the substances:						
	Identification		Ac	ute toxicity		Genus

	EC: 203-806-2	Surface tension	24650 N/m (25 °C)	Moist soil	Non-applicable
12.5	Results of PBT and vPvB assessment:				
	Non-applicable				
12.6	Other adverse effects:				
	Not described				

Not described

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods:

Code	Description	Waste class (Regulation (EU) No 1357/2014)
16 05 04*	Gases in pressure containers (including halons) containing dangerous substances	Dangerous

Type of waste (Regulation (EU) No 1357/2014):

HP3 Flammable, HP14 Ecotoxic

Waste management (disposal and evaluation):

Consult the authorized waste service manager on the assessment and disposal operations in accordance with Annex 1 and Annex 2 (Directive 2008/98/EC). As under 15 01 (2014/955/EC) of the code and in case the container has been in direct contact with the product, it will be processed the same way as the actual product. Otherwise, it will be processed as non-dangerous residue. We do not recommended disposal down the drain. See paragraph 6.2.

Regulations related to waste management:

In accordance with Annex II of Regulation (EC) nº1907/2006 (REACH) the community or state provisions related to waste management are stated

Community legislation: Directive 2008/98/EC, 2014/955/EU, Regulation (EU) No 1357/2014

SECTION 14: TRANSPORT INFORMATION

Transport of dangerous goods by land:

With regard to ADR 2015 and RID 2015:

14.1	UN number:	UN1950		
14.2	UN proper shipping name:	AEROSOLS, flammable		
	Transport hazard class(es):	2		
2	Labels:	2.1		
14.4	Packing group:	N/A		
14.5	Dangerous for the environment:	Yes		
14.6	Special precautions for user			
	Special regulations:	190, 327, 625		
	Tunnel restriction code:	D		
	Physico-Chemical properties:	see section 9		
	Limited quantities:	1 L		
14.7	Transport in bulk according to Annex II of Marpol and the IBC Code:	Non-applicable		
Transport of dangerous goods by sea:				
With regard to IMDG 37-14:				

Agealube Silicone Spray, aerosol 26.017

SECTION 14: TRANSPORT INFORMATION (continued)				
	UN number: UN proper shipping name: Transport hazard class(es): Labels:	UN1950 AEROSOLS, flammable 2 2.1		
	Packing group:	N/A		
14.5	Dangerous for the environment:	Yes		
14.6	-			
	Special regulations:	Non-applicable		
	EmS Codes:	F-D, S-U		
	Physico-Chemical properties:	see section 9		
	Limited quantities:	1L		
14.7	Transport in bulk according to Annex II of Marpol and the IBC Code:	Non-applicable		
Transport of dangerous g	oods by air:			
With regard to IATA/ICAO	2015:			
14.2 14.3 14.4 14.5 14.6 14.7	Transport hazard class(es): Labels: Packing group: Dangerous for the environment: Special precautions for user Physico-Chemical properties: Transport in bulk according to Annex II of Marpol and the IBC Code:	UN1950 AEROSOLS, flammable 2 2.1 N/A Yes see section 9 Non-applicable		
SECTION 15: REGULATORY II				
15.1 Safety, health and environ	mental regulations/legislation spec	ific for the substance or mixture:		
Candidate substances for	authorisation under the Regulation	(EC) 1907/2006 (REACH): Non-applicable		
Substances included in Ar	Substances included in Annex XIV of REACH ("Authorisation List") and sunset date: Non-applicable			
Regulation (EC) 1005/200	Regulation (EC) 1005/2009, about substances that deplete the ozone layer: Non-applicable			
Article 95, REGULATION (E	Article 95, REGULATION (EU) No 528/2012: Non-applicable			
REGULATION (EU) No 649	/2012, in relation to the import and	export of hazardous chemical products: Non-applicable		
Limitations to commercial	Limitations to commercialisation and the use of certain dangerous substances and mixtures (Annex XVII, REACH):			
Contains more than 0.1 %	Contains more than 0.1 % of Cyclohexane by weight. Without prejudice to other Community legislation concerning the classification,			

Contains more than 0.1 % of Cyclohexane by weight. Without prejudice to other Community legislation concerning the classification, packaging and labelling of substances and mixtures, suppliers shall ensure before the placing on the market that neoprene-based contact adhesives containing cyclohexane in concentrations equal to or greater than 0.1 % by weight that are placed on the market for supply to the general public after 27 December 2010 are visibly, legibly and indelibly marked as follows:"—This product is not to be used under conditions of poor ventilation.—This product is not to be used for carpet laying.".

Specific provisions in terms of protecting people or the environment:

It is recommended to use the information included in this safety data sheet as data used in a risk evaluation of the local circumstances in order to establish the necessary risk prevention measures for the manipulation, use, storage and disposal of this product. **Other legislation:**

The product could be affected by sectorial legislation

Council Directive 75/324/EEC of 20 May 1975 on the approximation of the laws of the Member States relating to aerosol dispensers Commission Directive 94/1/EC of 6 January 1994 adapting some technicalities of Council Directive 75/324/EEC on the approximation of the laws of the relating Member States to aerosol dispensers

Commission Directive 2008/47/EC of 8 April 2008 amending, for the purposes of adapting to technical progress, Council Directive 75/324/EEC on the approximation of the laws of the Member States relating to aerosol dispensers

Commission Directive 2013/10/EU of 19 March 2013 amending Council Directive 75/324/EEC on the approximation of the laws of the Member States relating to aerosol dispensers in order to adapt its labelling provisions to Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures

15.2 Chemical safety assessment:

Agealube Silicone Spray, aerosol 26.017

SECTION 15: REGULATORY INFORMATION (continued)

The supplier has not carried out evaluation of chemical safety.

SECTION 16: OTHER INFORMATION

Legislation related to safety data sheets:

This safety data sheet has been designed in accordance with ANNEX II-Guide to the compilation of safety data sheets of Regulation (EC) N° 1907/2006 (Regulation (EU) N° 453/2010, Regulation (EC) N° 2015/830)

Modifications related to the previous security card which concerns the ways of managing risks. :

Non-applicable

Texts of the legislative phrases mentioned in section 2:

H222: Extremely flammable aerosol

H315: Causes skin irritation

H336: May cause drowsiness or dizziness

H411: Toxic to aquatic life with long lasting effects

H229: Pressurised container: May burst if heated

Texts of the legislative phrases mentioned in section 3:

The phrases indicated do not refer to the product itself; they are present merely for informative purposes and refer to the individual components which appear in section 3

CLP Regulation (EC) nº 1272/2008:

Aquatic Acute 1: H400 - Very toxic to aquatic life Aquatic Chronic 1: H410 - Very toxic to aquatic life with long lasting effects Aquatic Chronic 2: H411 - Toxic to aquatic life with long lasting effects Asp. Tox. 1: H304 - May be fatal if swallowed and enters airways Flam. Liq. 2: H225 - Highly flammable liquid and vapour Repr. 2: H361f - Suspected of damaging fertility. Skin Irrit. 2: H315 - Causes skin irritation STOT RE 2: H373 - May cause damage to organs through prolonged or repeated exposure STOT SE 3: H336 - May cause drowsiness or dizziness **Advice related to training:** Minimal training is recommended to prevent industrial risks for staff using this product, in ord

Minimal training is recommended to prevent industrial risks for staff using this product, in order to facilitate their comprehension and interpretation of this safety data sheet, as well as the label on the product.
