

Copper Spray

Product Data Sheet | Art.no 26.011

Description

Creates a long-lasting lubricating film that prevents screw threads from wearing and/or sticking when exposed to very high temperatures. It is steam-, chemical- and weather-resistant, and prevents screw threads from corroding. Has extremely high thermal stability, excellent corrosion resistance and can withstand temperatures between 40 and 1,100°C. Use: Brake parts, exhaust components, screw threads exposed to extreme temperatures, battery terminals, spark plug threads, etc.

Available in

400ml

Date printed 14-09-2023
