

# Dry Moly Spray

Product Data Sheet | Art.no 26.055

## Description

A resin bonded, fast drying lubricating coating. Contains Molybdenum Disulphide for lubrication and protection of components against seizure and wear. Extreme load carrying capacity, reduces friction and protects against fretting corrosion. Wide operating temperature range (-50 up to 450°C), effective dry lubricant for all metal surfaces.

## Available in

400ml

## Typical standard analyses

Appearance	Grey / black
Temperature range, °C	-180 up to +450
Lubricating solid	Molybdenum disulphide
Shelf life, months	12

Date printed 16-09-2023
